

I am writing to you from Midland, Texas, a town who currently has K-Love Radio on its FM station of 88.7. This is a station that supports wholesome values and has a positive and encouraging impact on our community and other communities as well. I believe K-Love saves lives as well as generates interest in becoming a Christian or becoming a stronger Christian and can have a huge positive impact on families which will build strong morals and character amongst our children. I believe the K-Love signal needs to stay on the national level, i.e. FM translators.

Thank you for your time.
